

OET GLOSSARY

A

abortion	antibiotic
abrasion	antibody
abscess	anticoagulant
acne	anticonvulsant
acquired immunodeficiency syndrome (AIDS)	antidiarrheal
acute	antidiuretic
adrenaline	antidote
adverse	antihistamine
afterbirth	antinauseant
airway	antipruritic
albuminuria	antiseptic
allergy	aorta
alopecia	arrhythmia
amenorrhea	arteriogram
amniocentesis	arteriosclerosis
anal	arthritis
analgesic	ascites
anaphylaxis	asphyxia
anaemia	asthma
anaesthesia	astigmatism
aesthetic	ataxia
aneurysm	atrophy
angioplasty	audiogram
antacid	aural
anterior	autoimmune disease

B

bacteria	bradycardia
barbiturates	breech birth
benign	bronchitis
beta-blocker	bronchus
bile	bulimia
bile duct	bunion
biopsy	bursa
blood vessels	bursitis
bone marrow	bypass
bowel	

C

<p> calcipenia cancellous bone cancer cancerous capillary carbohydrates carbuncle carcinogenic carcinoma cardiac cardiodynia carpal carpal tunnel syndrome cartilage cataract catheter cellulitis central nervous system (CNS) cephalgia cerebellitis cerebral cerebrovascular accident (CVA) cervix chemotherapy chiropodist chiropractor chlamydia cholecystitis chronic chronic obstructive pulmonary disease (COPD) circumcision cirrhosis </p>	<p> clavicle cleft lip and palate coccyx cochlea coma compliance / compliant complaint complications conception concomitant concussion confidentiality congenital anomaly congenital heart disease conjunctivitis connective tissue conscious constipation contraindications contusion convulsion cornea coronary artery cortex cortisol cough cranial Crohn's disease croup cyanosis cyst cystic fibrosis cystitis </p>
--	--

D

<p> debridement deep vein thrombosis (DVT) defecation defibrillation dementia depressant dermabrasion dermatitis </p>	<p> discectomy distal diuresis diuretic diverticulitis dorsal down's syndrome duct </p>
--	--

dermis detached retina diabetes insipidus diabetes mellitus diaphoresis diaphragm diarrhea dilation and curettage (D&C) diplopia	duodenal ulcer dysentery dysmennorrhea dyspepsia dysphagia dysphasia dyspnea dysuria
--	---

E

ecchymosis echocardiogram eclampsia ectopic pregnancy eczema edema ejaculation electrocardiogram (ecg) electroencephalogram (eeg) embolus embryo emesis emollient	emphysema encephalitis endometriosis endorphin enema epidermal epigastric epilepsy episiotomy erythema estrogen excretion
---	--

F

fasting blood sugar feces femoral femur fetus fibrillation fibroid tumor	fissure flexion forceps foreskin fracture fungus
--	---

G

gait gallbladder gangrene gastric ulcer gastritis gastrodynia gastroenteritis gavage	genital genitalia gingiva gingivitis gland glaucoma globulins glucose gonorrhoea
--	--

general anesthesia	gout
generic name	growth hormone
genetic	gynecology

H

hematemesis	hernia
hematology	herniated disk
hematoma	herpes
hematuria	hiccup
hemiplegia	hodgkin's disease
hemoglobin	hormone
hemolysis	humerus
hemophilia	hypertension
hemorrhage	hypnotic
hemorrhoids	hypodermic
hemothorax	hypoxia
hepatitis	hysterectomy

I

idiopathic	influenza
idiosyncrasy	infusion
ileum	inhalant
immunity	insulin
immunodeficiency	intramuscular injection
impetigo	intravenous injection
incontinence	irritable bowel syndrome
inflammation	

J

jaundice	
----------	--

L

laceration	lesion
labyrinthitis	leukemia
lactating	ligament
laparoscope	lipid tests
laparotomy	liver
large intestine	lower GI (gastrointestinal) series
laryngitis	lumbar puncture
larynx	lung lobe
laser angioplasty	lupus erythematosus (LE)
laxative	lymph
legionnaires' disease	lymph node
lens	lymphoma

M

magnetic resonance imaging (MRI) malignant mammary glands mammogram mandible mastitis maxilla melanoma Meniere's disease meningitis menopause	menstrual period metabolism metastasis migraine miscarriage mucus multiple sclerosis (MS) muscular dystrophy (MD) myocardial infarction (MI) myopia
---	--

N

narcotic nasal nasal septum nasogastric tube nausea nebuliser necrosis neonate	neoplasm nephritis nerve neuralgia neuroses nevus nucleus
---	---

O

Obstetrics Obstructive sleep apnea Oncology Ophthalmalgia Optic nerve Oral administration Osteoarthritis (AO) Otitis Ovaries Ovulation oxytocin	
---	--

P

Palate	polyarteritis
Palor	polycystic kidney
Pancreas	polymyositis
Pancreatitis	polyneuritis
Pap test	polyp
Paraplegia	polyuria
Paresis	posterior
Parkinson's disease	postpartum
Patch test	preeclampsia
Patela	pregnancy
Pathogenic	prognosis
Pelvic inflammatory disease	prolapsed uterus
Penicillin	prostate gland
Peptic ulcer	prosthesis
Percutaneous	pruritus
Perineum	psoriasis
Pharyngitis	psychogenic
Placebo	psychologist
Placenta	psychosis
Plantar	psychosomatic
Plasma	puberty
Platelets	pulmonary
pleurisy	pulmonary edema
pneumonectomy	pulmonary embolism
pneumonia	pupil
podiatrist	pustule

Q

quadriplegia

R

radius	retina
rectal administration	rhinitis
red blood cell (RBC)	rhinoplasty
red blood cell count	renal biopsy
remission	renal transplant
renal	retina
renal biopsy	rhinitis
renal transplant	rhinoplasty

S

sacrum	spasm
saliva	speculum
sarcoma	sperm
scabies	spina bifida
scapule	spinal cavity
scoliosis	spinal cord
scratch test	spirometer
scrotum	spleen
sebaceous gland	sputum
sedation	staphylococcus
sedative	stenosis
seizure	sterilization
semen	sternum
serrations	stethoscope
serum	stimulant.
serum bilirubin	stomach
serum calcium	stool
serum creatine kinase	stool culture
serum enzyme test	stricture
serum phosphorus	stye
sexually transmitted disease (STD)	subcutaneous (SC)
sharp	superficial
shingles	superior
sickle cell anemia	suppository
side effect	sweat glands
singleblind trial	syndrome
sinusotomy	syphilis
sleep apnea	system
slipped disk	systemic lupus erythematosus (SLE)
small intestine	systole

T

tachypnea	tinnitus
tarsal bones	tolerance
tendinitis	tonsil
tendon	tonsillectomy
testicle	topical application
tetraplegia	toxicity
thoracentesis	trachea
thorax	tranquilizer
throat	transdermal
thyroid gland	transient ischemic attack (TIA)
thyroidectomy	tubal ligation
tibia	tuberculosis
tissue	tympanic membrane

U

ulcer ulcerative colitis ultrasound umbilical region unconscious unilateral upper GI (gastrointestinal) series upper respiratory infection (URI) urethrogram urethra urinal urinalysis	urinary catheterization urinary retention urinary suppression urinary tract urinary tract infection (UTI) urination urine urine pH urologist uterus uvula uvulectomy
---	---

V

vagina varicose veins vasectomy vein ventilator verruca vertebra	vertebral column vertigo vesicle viral virus visceral
--	--

W

white blood cell (WBC) white cell count whooping cough (pertussis)	
--	--
